NIGHT CALLER

club

Night Caller is a voice at the other end of a 'phone. I receive his call promptly at 11 every night and I'm surprised that I never hang up. From the moment he first spoke, I became wet between the legs for him. He is an educated man and I pray that one day I will take his cock out of its fleshy case and stick it in my cunt and in my mouth and let him ejaculate down my throat. I want to swim in his love juice and let it flow over my lips and down onto my breasts so that he can massage it into my nipples. I watch for him as I walk home and soon I shall invite him to my room so that I can let him work out his erotic fantasies on me. His mind excites me, so I know that I will find him attractive. He is middle aged, worldly and assured. He will talk to me as he stabs his cock in and out of me . . . Urging me on as I climax with my legs around him and whisper me to sleep as he pumps his spunk up my love tunnel. The phone is one of the greatest forms of foreplay. ♣
